Efficient performance

The XC95m is rated with up to 97.3% efficiency (AFUE) and select furnace models are Energy Star qualified.

ComfortLink™ II Communicating Capability

ComfortLink™ II communicating technology connects all of your key components so your system automatically charges, configures and calibrates for optimal performance through the lifetime of your products.

Comfortable, even heating

Variable-speed blower motor adjusts speed to provide a consistent flow of warm, comfortable air with quiet operation.

Cleaner, healthier indoor air

Add Trane CleanEffects™ to your system for advanced air filtration that removes more dust, pollen and other irritants from conditioned air for a cleaner, healthier, more comfortable home.

Every Trane furnace is packed with high-quality components. Each helps ensure that time after time, your unit will provide total comfort your family can rely on. The XC Communicating includes:

- ComfortLink™ II communicating capability
- Communicating user interface
- Variable-speed blower motor
- Fully modulating gas heat furnace provides greater fuel efficiency and ultimate comfort control
- Heavy gauge, two-tone powder-painted cabinet
- Increased dehumidification with Comfort-R™
- Durable silicon nitride hot surface igniter
- Multi-port, in-shot burners
- One-piece aluminized steel primary heat exchanger
- 24-volt fuse to protect controls
- Insulated cabinet for quiet operation
- Compatible with ERV, humidifier and air cleaner
